-Child/Family Identification and Relationship Introduction Paragraph:

One child (unknown/deceased) resided with the mother, [REDACTED] (37) in [REDACTED] County. [REDACTED] adult daughter, [REDACTED] (20), and [REDACTED] boyfriend, [REDACTED] (22), also reside in [REDACTED] County.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
No

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.

On 12-15-2021, [REDACTED] went by the home to check on [REDACTED]. [REDACTED] entered the home and saw [REDACTED] did not look well. [REDACTED] called EMS. At 11:51 p.m., EMS was dispatched to [REDACTED] home. EMS entered the home. At 0025 hours, LE responded.

**Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary**

EMS had pictures of blood in the home, and there was blood on the bathroom floor. EMS showed that the toilet had been closed. EMS lifted the toilet seat and found a baby was face down inside of the toilet. EMS disclosed that the infant was unresponsive. EMS asked [REDACTED] while she was in the ambulance, "you said that this happened last Friday?". [REDACTED] said, "yes". [REDACTED] had been referring to the infant being in the toilet. LE overheard [REDACTED] says this to EMS. [REDACTED] was transported to [REDACTED] Regional Medical Center.

The infant is still in the home. It is unknown if the infant had special needs or disabilities. LE is currently waiting for a search warrant to be able to go into [REDACTED] home. Investigators are not sure if there will be charges filed. The infant is still head down in the toilet until LE investigators can make entry. [REDACTED] or [REDACTED] said [REDACTED] had tried to get an abortion last week. [REDACTED] said she did not know [REDACTED] was pregnant. LE received pictures from EMS. In the pictures, the infant appeared to be fully developed because LE could make out the child's feet. [REDACTED] was supposedly due in February 2022. Detective [REDACTED] attempted to speak with [REDACTED] was going in and out of consciousness. [REDACTED] told LE that she was going to the hospital with [REDACTED] Detectives searched for [REDACTED] at the hospital and were unable to find her. It is unknown where [REDACTED] is currently located. [REDACTED] condition currently is unknown. LE is still actively investigating the concerns.

There are concerns for substance abuse with [REDACTED] LE has dealt with [REDACTED] in the past related to substance abuse concerns. [REDACTED] has a prior criminal history with LE. LE has not been involved with any prior Child Death or PND incidences. There are no domestic violence concerns in the home.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?

No

-Anything additional to add to this initial report for the responding worker to know prior to response?
Police Report# [REDACTED]. EMS took 3 photos while in [REDACTED] home. Investigators will take more photographs once they are able to enter.

CM Notation: The referent had limited information due to not being able to enter the home without a search warrant.

Screener Notation: Per TFACTS the mother also has another child, [REDACTED] [REDACTED] [REDACTED] (10, DOB: [REDACTED])

Additional info provided by CPS Director [REDACTED] [REDACTED] (via LI [REDACTED] [REDACTED] and TC [REDACTED] [REDACTED] Team Leader [REDACTED] contacted [REDACTED] County Sheriff's Department Detectives [REDACTED] [REDACTED] and [REDACTED] [REDACTED] in regards to this case.

Detective [REDACTED] reported that EMS was called by [REDACTED] last name unknown the boyfriend to [REDACTED] [REDACTED] the adult daughter of [REDACTED] [REDACTED] reporting that [REDACTED] was bleeding really bad from her vagina and having alot of pain. When EMS arrived to the home they saw alot of blood and clots around the living area. When they went to the bathroom they saw an umbilical cord hanging from the toilet and when they opened the lid they seen the deceased child. At this point they asked [REDACTED] when she gave birth and she said Friday. At this point the adult daughter [REDACTED] became verbally aggressive and kicked everyone out of the home. EMS took the [REDACTED] to [REDACTED] Regional Medical Center where it was determined she lost about 80% of blood. Mom reported to hospital staff that she miscarried on Friday but the baby was not due till February. The doctors examined her and stated that it appeared she gave birth naturally and that the baby should have been full term.

Law enforcement had to obtain a search warrant to regain entry into the home and gather evidence. The medical examiner came to the home and reported that the baby appeared to be full term with no visible abnormalities. The adult sister [REDACTED] returned to the home while the search warrant was being executed and stated that she did not know mom was pregnant. [REDACTED] stated she came to check on her mom and that she saw how much she was bleeding at that is why [REDACTED] called EMS.

Detectives report at this time they believe that [REDACTED] was attempting to cover up what occurred and that is why she kicked law enforcement out of the home.

Law enforcement has sent in a preservation request for all social media accounts belonging to [REDACTED]

**Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary**

and [REDACTED] to find evidence to support the belief that [REDACTED] knew about the child's death.

It is believed the child was born alive but the autopsy is scheduled at 1pm today and TL [REDACTED] will be contacted with those preliminary results which will include whether the child was born alive or stillborn.

Law Enforcement will be pressing charges regardless if the child was stillborn or not. The exact charge will depend on this information.

The mother is currently unstable in the hospital but is expected to survive.

In addition: [REDACTED] [REDACTED] contacted [REDACTED] who reported that [REDACTED] was with her and was not present in school today due to her being sick. [REDACTED] reported that she continues to maintain custody and that her mother has not had any unsupervised contact.

The preliminary autopsy was completed, and fluid was found in the lungs but until toxicology is completed they cannot tell if it was birth fluids or toilet water so at this time law enforcement is working the case as if the child was born alive.

The other minor child was present yesterday and told law enforcement that she saw mom bleeding really bad and then saw "it" in the toilet. She will need a forensic interview and the Sheriffs department has requested that we assist with this case.

Also I was told that the other child does stay with the mother sometimes and that meth was found in the mothers car last night.

Death Case Summary

On December 16, 2021, the Department of Children's Services (DCS) received a referral for an allegation of Abuse Death regarding Alleged Child Victim (ACV) [REDACTED] [REDACTED] newborn. The Alleged Perpetrator (AP) was [REDACTED] [REDACTED] mother, at the time of the referral. This investigation was assigned to Child Protective Services Case Manager (CM) [REDACTED] by Team Leader (TL) [REDACTED] [REDACTED]. This case was worked in conjunction with [REDACTED] County Police Department (CPD) Officer, [REDACTED] [REDACTED].

[REDACTED] [REDACTED] (0) lived at home with his birth mother, [REDACTED] [REDACTED].

Other involved child: [REDACTED] [REDACTED] (age 10) was removed from [REDACTED] [REDACTED] custody in October 2021 due to drug related allegations/charges. She was placed in the custody of her adult sister, [REDACTED] [REDACTED] (age 21) where she has remained.

On December 16, 2021, [REDACTED] County Police Department responded to the home of a deceased infant. It was reported that the infant was found deceased in the toilet that was in the bathroom. [REDACTED] County Emergency Medical Services (EMS) discovered the infant in the toilet after responding to the home due to a medical emergency for [REDACTED] [REDACTED]. EMS observed the infant with his head, right shoulder and arm and parts of the abdomen were submerged in the toilet water. The umbilical cord was still attached and present. There were no resuscitative efforts made for the infant.

CM [REDACTED] contacted [REDACTED] [REDACTED] (adult sibling of [REDACTED] [REDACTED]) on December 16, 2021 and requested that she bring [REDACTED] [REDACTED] (half-sibling of [REDACTED] [REDACTED]) for a forensic interview on December 17, 2021 at 10:00am. After [REDACTED] was forensically interviewed Detective [REDACTED] [REDACTED] and CM [REDACTED] met with [REDACTED] [REDACTED] [REDACTED] [REDACTED] stated that she did not know her mother was pregnant. [REDACTED] has been sick and bleeding lately. She was unable to get a hold of her mother and she went to check on her. When she found

her mother, she appeared sick and had yellowish tint, she realized that her mother needed to go to the hospital and called 911. She looked in bathroom and saw blood but did not see a baby or see the umbilical cord hanging out the toilet. At this point in the interview [REDACTED] asked for a lawyer and stated that she no longer felt comfortable talking to CM [REDACTED] and Detective [REDACTED]

On December 17, 2021, [REDACTED] (age 10) was forensically interviewed at the [REDACTED] County Childrens Advocacy Center. [REDACTED] disclosed that Ms. [REDACTED] her mother had been sick and bleeding so she and her sister, [REDACTED] had been going to check on her. [REDACTED] knew that her mother was pregnant. She disclosed that she went to her mothers home and saw what she thought was a baby in the toilet. [REDACTED] went and told Ms. [REDACTED] that there was a baby in the toilet. Ms. [REDACTED] told [REDACTED] to go and shut the toilet lid and not tell anyone and she would clean it up later.

[REDACTED] has struggled with illegal substance use for many years. Law Enforcement found Methamphetamine in car the night of December 16, 2021. On December 16, 2021, [REDACTED] was interviewed by Detective [REDACTED] and Detective [REDACTED] Ms. [REDACTED] admitted she started smoking Methamphetamine about six months ago which was after she found out she was pregnant. The last time she smoked Methamphetamine was a week ago and has since started taking Subutex with the hopes of trying to discontinue the use of Methamphetamine. [REDACTED] did not disclose any mental health issues during the investigation.

On December 17, 2021, [REDACTED] was interviewed at the [REDACTED] Regional Medical Center by Detective [REDACTED] ([REDACTED] County Sheriffs Office) and stated that she went one time to [REDACTED] Medical Group Seasons OB/GYN doctor on June 9, 2021, but did not attend any other OB appointments. She went into labor at Target and went home and continued to labor, having the baby in the toilet but did not check on him. [REDACTED] reported she sat on the toilet and ate Beanies and Weenies after she had delivered.

On December 16, 2021, an autopsy was completed on [REDACTED] by Dr. [REDACTED] MD, [REDACTED] Forensic Center [REDACTED] Tennessee. The autopsy stated, Based on the case history and autopsy findings, it is my opinion and manner of baby boy [REDACTED] a 34-36 week gestation male infant, are undetermined. Should additional information become available, the cause and/or manner of death may be amended. The manner of death is undetermined.

[REDACTED] toxicology report was positive for caffeine, buprenorphine/metabolite, and Methamphetamine/metabolite.

The alleged father is [REDACTED] Detective [REDACTED] was able to speak with him, and he stated they had relations at the beginning of the year with [REDACTED] but [REDACTED] advised that when [REDACTED] found out she was pregnant that she would not talk about the baby and did not tell him much about the pregnancy. [REDACTED] would not claim the baby at the medical examiner office. [REDACTED] would not claim the baby at the medical examiners office due to him not knowing if he was the actual father of the baby. [REDACTED] maternal grandmother, went and claimed the infants remains so that a funeral could be held. [REDACTED] named the baby [REDACTED]

Due to [REDACTED] passing away after birth in the family home, there are no medical records to request.

On June 9, 2021 Ms. [REDACTED] went to [REDACTED] Medical Group Seasons to confirm pregnancy and this was her only prenatal appointment. At this visit the pregnancy was confirmed stating that she was 6 weeks and 1 day in her pregnancy. She tested positive for Methamphetamine, Amphetamine, Buprenorphine, and Benzodiazepines,

at this appointment. The urine drug screen also showed abnormal high levels for Nordiazepam, Oxazepam, Temazepam, and Buprenorphine. [REDACTED] [REDACTED] had an ultrasound on June 9, 2021 that showed within normal limits and did not show any fetal abnormalities.

On May 18, 2022 CM [REDACTED] presented this case to the [REDACTED] County Child Protective Investigative Team (CPIT). Those in attendance were; DCS Case Manager [REDACTED] [REDACTED] DCS Supervisor [REDACTED] [REDACTED] Law Enforcement [REDACTED], District Attorney [REDACTED] [REDACTED] Juvenile Court [REDACTED], Mental Health [REDACTED] [REDACTED], and Children Advocacy Center [REDACTED]. The team agreed that there is a preponderance of evidence that supports the substantiation of the Abuse Death.

Per DCS Policy Work Aid 1 Section E:

Child Death is defined as:

- a) Any child death caused by abuse or neglect.
- b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
- c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

There no other safety factors in this case. [REDACTED] [REDACTED] (half sister) was already placed outside of the home with her sister, [REDACTED] [REDACTED]

There is a preponderance of evidence to support the allegation of Abuse Death. This case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for the Abuse Death of [REDACTED] [REDACTED] with [REDACTED] [REDACTED] as the alleged perpetrator. At this time, the case is still a pending criminal investigation and criminal charges are being discussed with the [REDACTED] County District Attorneys office. Ms. [REDACTED] was provided resources for Alcohol and Drug treatment programs but declined the services recommendations.

Case was reviewed by Team Coordinator (TC) [REDACTED] and the following action steps were identified but no limited do. Team Leader (TL) [REDACTED] reviewed the following identified action steps with Case Manager (CM) [REDACTED]

Next Steps:

- CM will request mothers medical records from LE through their subpoena. Records will be reviewed and uploaded to TFACTS. Appears the records were uploaded under the child for the mother. When I pulled them up it states there is a code needed to review? Can you print these and upload them under the mother?
- CM will request all interviews and information/evidence/photos collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
- CM will complete CFTM with 20yo sister and maternal grandmother. Mother will also be included if allowed in consideration of MH treatment/condition at the time.
- CFTM will include mental health/therapy services for the 10yo.-Currently in horse therapy-Child stated if she wanted to talk to anyone else should would talk to her school counselor.
- CM will request hair follicle for the 10yo. I may have over looked this, what was the results?
- CM will consult DA/LE regarding follow-up FI for the 10yo.-Completed. Do you have the FI form from the CAC.
- CM will add appropriate allegations of harm in association with the 10yo-Drug Exposure and Psychological Harm had been added.
- CM will continue efforts to engage and include the fathers as appropriate.
- CM will document and upload autopsy into TFACTS once received-upload completed
- CM will complete Closing FAST prior to case closure.
- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review-completed

[REDACTED] ([REDACTED])

The ACVs babysitters home consisted of the following individuals:

[REDACTED] did not have any other caretakers.

On December 16, 2021, the Department of Children's Services (DCS) received a referral for an allegation of Abuse Death regarding Alleged Child Victim (ACV) [REDACTED] (0). The Alleged Perpetrator (AP) was [REDACTED] at the time of the referral. This investigation was assigned to Child Protective Services Investigator (CPSI) [REDACTED] by Lead Investigator (LI) [REDACTED]. This case was worked in conjunction with [REDACTED] County Police Department ([REDACTED]) PD Officer, [REDACTED].

[REDACTED] (0) lived at home with his birth mother, [REDACTED] [REDACTED] [REDACTED].

On December 16, 2021, [REDACTED] County Police Department responded to the home of a deceased infant. It was reported that the infant was found deceased in the toilet in the bathroom. [REDACTED] County Emergency Medical Services (EMS) discovered the infant in the toilet after responding to the home due to a medical emergency for [REDACTED] [REDACTED]. EMS observed the infant with his head, right shoulder and arm and parts of the abdomen were submerged in the toilet. The umbilical cord was still attached and present. There were no resuscitate efforts made for the infant.

[REDACTED] [REDACTED] (10 years old and daughter of [REDACTED]) was interviewed and stated that her mother knew that she was pregnant and that she found the baby in the toilet and told her mother. [REDACTED] reported that her mother told her to go and shut the toilet lid and not tell anyone and she would clean it up later. [REDACTED] did not give law enforcement or Case Manager [REDACTED] an explanation as to why she did not go for prenatal care throughout her pregnancy.

[REDACTED] [REDACTED] (20 years old and daughter of [REDACTED]) stated that her mother tried to have an abortion the week prior to this incident.

[REDACTED] [REDACTED] stated that she went one time to [REDACTED] Medical Group Seasons OB/GYN doctor but did not attend any other OB appointments. [REDACTED] stated that she went into labor at Target and went home and continued in labor. [REDACTED] stated that she had the baby in the toilet but did not check on him. [REDACTED] reported she sat on the toilet and ate Beanies and Weenies.

CPSI [REDACTED] has uploaded the crime scene photos to TFACTS.

On December 16, 2021, an autopsy was completed on [REDACTED] [REDACTED] by Dr. [REDACTED] MD, [REDACTED] Forensic Center [REDACTED] ty, Tennessee. The autopsy stated, Based on the case history and autopsy findings, it is my opinion and manner of baby boy [REDACTED] a 34-36 week gestation male infant, are undetermined. Should additional information become available, the cause and/or manner of death may be amended. The manner of death is underdetermined.

[REDACTED] toxicology report was positive for caffeine, buprenorphine/metabolite, and Methamphetamine/metabolite.

Baby boy [REDACTED] is now known as [REDACTED] [REDACTED]

[REDACTED] had no medical records to review or to request due to him passing 5 seconds after birth. When Case Manager [REDACTED] received [REDACTED] Death Certificate it stated that he was alive for 5 seconds.

On May 18, 2022 CPSI [REDACTED] presented this case to the [REDACTED] County Child Protective Investigative Team (CPIT). Those in attendance were; DCS Case Manager [REDACTED] DCS Supervisor [REDACTED] Law Enforcement [REDACTED], District Attorney [REDACTED] Juvenile Court [REDACTED], Mental Health [REDACTED], and Children Advocacy Center [REDACTED]. The team agreed that there is a preponderance of evidence that supports the substantiation of the Abuse Death.

Per DCS Policy Work Aid 1 Section E:

Child Death is defined as:

- a) Any child death caused by abuse or neglect.
- b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
- c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

There no other safety factors in this case. [REDACTED] [REDACTED] (half sister) was already placed outside of the home with her sister [REDACTED] [REDACTED]

CM has submitted this case for closure with classification of ASPS for abuse death, Drug Exposed Child, and psychological harm

Timeline

On 12/16/2022 CM [REDACTED] was made aware of a referral pending regarding deceased infant, CM [REDACTED] attempted to make contact with [REDACTED] (ACV) but was not successful. CM [REDACTED] was able to schedule a forensic interview for 12/17/2022 due to [REDACTED] being in the home at the time of the incident. On 12/17/2022 CM [REDACTED] met with [REDACTED] where she disclosed that [REDACTED] stated that there was a ton of blood in her bathroom, bed, floor, and some blood in her mother bathroom. [REDACTED] asked whos blood was in the house? [REDACTED] stated, It was my moms blood because whenever I was born she lost a lot of blood and then she accidentally got pregnant again. [REDACTED] stated that there was a baby in the toliet, blood, and used tampons. She disclosed seeing the infant in the toilet and a lot of blood from mom. She drew a picture on the whiteboard of the umbilicord hanging out of the toilet. She never heard or saw the baby move while it was in the toilet. On 2/1/2022 [REDACTED] had another forensic interview where she disclosed [REDACTED] advised the day EMS was called they went to target around 1-2. Her mom was fine before target but at target she got really sick. They saw [REDACTED] at target. When they got home after 1-2 hours, she heard mom scream from the bathroom and cry. She went in and mom was in the floor bleeding and a baby was in the toilet. Mom told [REDACTED] to shut the lid and not tell anyone about the baby. [REDACTED] said she helped mom to her bed around 1am and the next day she got her nails done at [REDACTED] around 10am. I will follow up with [REDACTED] about the day and time she was there. [REDACTED] drew on whiteboard the baby feet in the toilet that she saw. On 3/18/2022 CM [REDACTED] reviewed the death certificate that stated that [REDACTED] [REDACTED] was alive for 5 minutes. On 5/18/2022 CM [REDACTED] presented the case to CPIT and it was classified as abuse death due to [REDACTED] being alive for 5 minutes and there being enough evidence to substainate for abuse death. [REDACTED] was placed with [REDACTED] maternal grandmother and that is where she continues to reside.

Case Recording Summary

Case Id: [REDACTED]

Case Name: [REDACTED] [REDACTED]

Case Status: Close

Organization: [REDACTED] Region

CM [REDACTED] classified the allegations as ASPS for abuse death, drug exposed child, and psychological harm. CM [REDACTED] found that it did meet the definition for abuse death, drug exposed child, and psychological harm.

Drug Exposed Child:

This allegation pertains to a person under the age of 18 who:

 Has been exposed to or experiencing withdrawal from use, sale, or manufacture of a drug or chemical substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the child's physical, mental, or emotional functioning as a result of the actions or behaviors of the parent/caregiver; or

 Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or

 Has a parent/caregiver that has current addiction issues that could adversely affect the child's physical, mental, or emotional functioning.

NOTE: The manufacturing of methamphetamine where children are present, or in close proximity, is always considered severe abuse.

NOTE: Infants born with a diagnosis of Fetal Alcohol Spectrum Disorder (FASD) is always considered severe abuse.

NOTE: Infants born with a diagnosis of Neo-Natal Abstinence Syndrome (NAS) where the diagnosis is not based on the mother's prescribed and appropriately followed Medication-Assisted Treatment is always considered severe abuse.

Psychological harm:

A repeated pattern of caregiver behavior or extreme incident(s) that convey to children that they are worthless, flawed, unloved, unwanted, endangered or only of value in meeting another's needs and may include both abusive acts against a child and failure to act; neglectful behavior when age appropriate action is required for a child's healthy development (e.g., when a child is shown no affection). It can occur as part of an extreme one-time incident, e.g. a parent frustrated about continual bed-wetting forces a six (6) year old to wear diapers in the neighborhood), but is usually chronic.

NOTE: An allegation of psychological harm does not have to come from a professional.

Some types of psychological harm might include:

- a) An injury to a child by a caregiver that impairs his/her intellectual, emotional or psychological development.
- b) Verbal and non-verbal caregiver acts that reject and degrade a child such as belittling, degrading, shaming and ridiculing.
- c) Terrorizing; including caregiver behavior that threatens or is likely to physically hurt, kill, abandon or place the child or child's siblings, toys, or objects in recognizable dangerous situations to terrorize the child.
- d) Isolating that includes caregiver behaviors that consistently deny the child opportunities to meet needs for interacting or communicating with peers or adults inside or outside the home. Confining the child or placing unreasonable limitations on the child's freedom of movement within his or her environment.

1. Child death:

Child death is defined as:

- a) Any child death caused by abuse or neglect.
 - b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
 - c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another person's direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical

condition resulting from abuse, neglect or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect.

NOTE: When an initial referral or a referral on an open case contains information that suggests the child is in a serious or critical medical condition as a result of the allegation(s) or has been determined to meet the criteria for an allegation of near death as defined above, the Child Abuse Hotline selects Preliminary Near Death (PND) Indicator in TFACTS on the participants tab on a new intake or the investigative persons tab on an active case. The information does not have to come from a physician.

NOTE: Preliminary near deaths are always treated as severe child abuse.

Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week. The HR and EE were measured at baseline and after 12 weeks. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results suggest that a 12-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

The Abuse Death investigation regarding Alleged Child Victim (ACV) Unknown Newborn was debriefed with Case Manager (CM) [REDACTED] and Team Leader (TL) [REDACTED]. Also present was Team Coordinator (TC) [REDACTED] CPS Director (CPSD) [REDACTED] and Director of Critical Incident Support (DCIS) [REDACTED].

The CPS investigation was assigned on 12/17/21 concerning the death of ACV Unknown Newborn. At this time, the birth status [livebirth or stillborn] of the child has not been determined. The infant was born at the birth mothers [REDACTED] residence in [REDACTED] County. Also present was the mothers 10yo daughter [REDACTED]. The 10yo sibling was in the custody of her 20yo sister [REDACTED] at the time of the incident with a supervised contact order in place between the mother and 10yo. The 20yo and her boyfriend [REDACTED] resided in a separate residence, also in [REDACTED] County.

On 12/15/21 at approximately 11:50am EMS was dispatched to the mothers residence following a 911 called made by the 20yo daughter and her boyfriend, who reported they entered the home and found the mother not looking well and bleeding heavily. EMS and LE responded to the home, finding large amounts of blood throughout and within the bathroom, where the umbilical was found coming out of the toilet with lid down. EMS lifted the lid to find the ACV face down, colorless, and deceased. The mother was taken for medical care at [REDACTED] Regional Medical Center where it was determined she had lost approximately 80% and underwent an emergency hysterectomy. Drug screens were taken by medical and results are pending. The medical plan for the mother is too discharged to [REDACTED] for psychiatric hold and mental health evaluation once stable enough to do so. There was conflicting information from the 20yo sister and boyfriend with statements that it was unknown the mother was pregnant and that she had attempted to get a late-term abortion the previous week.

A forensic interview was completed with the 10yo sibling on 12/17/21. She reported she was aware her mother was pregnant, and she had been left by the 20yo sister at the mothers house. The 10yo reported she saw the umbilical cord coming out of the toilet, lifted the lid, and saw the ACV's hand and foot in the air, which is also how EMS described the position of the body. She also reported the mother has picked her up from school on numerous occasions. She did not go into detail regarding whether she heard the baby crying at any point or saw

movement. The DA is considering a follow-up FI soon. The 20yo sister denied the 10yo being unsupervised with their mother.

LE obtained a search warrant for the home and 20yo sisters vehicle. A bloody towel was found in the 20yos car. It was reported the mother, 10yo, and 20yo, went to Target on 12/15/21 and the mother started bleeding badly, and towel was used to help soak up the blood. LE is in the process of obtaining surveillance video from Target. Additionally, during the 10yos forensic interview she reported she and the 20yo sister had gotten the mothers phone to go through it. The mothers phone was found in the sisters car and included in the search warrant. Additionally, meth was found in the mothers home during execution of the search warrant and the mother admitted to using meth after she found out she was pregnant. A blunt and the smell of THC was also observed in the 20yos car.

It was determined the mother had told everyone at work she was pregnant since May 2021 and had been witnessed by coworkers high and passed out at work, often having the 10yo in her sole care at work after picking her up from school. The mother reported she received some prenatal care as well and thought she had another month before the baby was due. The mother reported she was bleeding heavily and thought she was having a miscarriage. She went to the bathroom where she birthed the baby into the toilet. She denied listening for any sounds or observing any movement, stating she ripped out the umbilical cord from herself and slammed the toilet lid down. The mother stated she then called for the 10yo to bring her beanie weenies, which she ate on the toilet, then went to lie down in her bed where she continued to bleed heavily until the 20yo daughter arrived shortly after and 911 was called.

The 10yo was placed in the custody of her 20yo sibling following a previous CPS case due to the mothers drug use. The court order included supervised contact for the mother, which was not being followed. An IPA was completed for the 10yo to be placed with the maternal grandmother [REDACTED] [REDACTED]. The grandmother appeared very protective of the 10yo but reported she had not been involved with the mother or her grandchildren in the last couple of years due to the drama the mother would create. The grandmother was supportive of no contact between the 10yo and 20yo and mother as the investigation continues and for therapy for the 10yo.

The father [REDACTED] [REDACTED] of the 10yo has been incarcerated but recently released and currently living in Alabama at the Salvation Army. Efforts are being made to engage and include him in future CFTM. It is reported the mother is terrified of the father due to past DV concerns against her; CM will research court and criminal Hx to determine appropriateness of his involvement at CFTM. The father [REDACTED] [REDACTED] of the ACV resides and works in [REDACTED] County. LE is in the process of notifying him of the death and interviewing him regarding his knowledge of the pregnancy and information about the mother and family.

The ME reported at this time they are unable to determine the status of the ACVs birth. Fluid was found in the lungs, but it is unknown if this is amniotic fluid or water from the toilet. More testing is occurring. ME believes ACV had been deceased within 48 hours prior to body being discovered and infant was full term. LE may charge the mother with murder or abuse of a corpse depending upon the outcome. LE is also considering charging the 20yo daughter with accessory after the fact depending on evidence provided by surveillance video, phones, and interviews. LE has subpoenaed all medical records of the mother.

Next Steps:

-- CM will request mothers medical records from LE through their subpoena. Records will be reviewed and uploaded to TFACTS.

Summary of interview with [REDACTED] [REDACTED] with Detective [REDACTED] [REDACTED]

She advised she was at Target with [REDACTED] and [REDACTED] when she began having contractions. She drove home and [REDACTED] went into her room. She went into the bathroom, sat on the toilet, and had the baby. She began to get weak from blood loss. She doesn't remember a lot. [REDACTED] brought her food and she ate. She said [REDACTED] did not shut the toilet lid so she must have. She did not hear the baby in the toilet so she did not think to look and check on him. She never looked at him and did not touch him. She called [REDACTED] to come help her after having the baby. She knew she was pregnant. She had a normal pregnancy with no problems. She was not ready to have another baby and did not know what to do with him once she had him. She thinks she had prenatal care one time at Seasons OBGYN. He came early so she did not know what to do because she was not ready for another baby. [REDACTED] admitted she started smoking meth about six months ago which was after she found out she was pregnant. The last time she smoked was a week ago and has since started taking subutex trying to get off the meth. [REDACTED] was not under arrest and was not detained during interview. Detectives did not know much about investigation and if a crime occurred. Detectives were speaking with [REDACTED] to find out what happened. After the interview and detectives left the ICU room, [REDACTED] nurse advised Det [REDACTED] the doctor has committed [REDACTED]. The nurse advised when [REDACTED] treatment at [REDACTED] is completed then she will be transferred to a mental facility. The nurse advised [REDACTED] does not know this information yet.

-Child/Family Identification and Relationship Introduction Paragraph:

One child (unknown/deceased) resided with the mother, [REDACTED] (37) in [REDACTED] County. [REDACTED] adult daughter, [REDACTED] (20), and [REDACTED] boyfriend, [REDACTED] (22), also reside in [REDACTED] County.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
No

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.

On 12-15-2021, [REDACTED] went by the home to check on [REDACTED]. [REDACTED] entered the home and saw [REDACTED] did not look well. [REDACTED] called EMS. At 11:51 p.m., EMS was dispatched to [REDACTED] home. EMS entered the home. At 0025 hours, LE responded.

EMS had pictures of blood in the home, and there was blood on the bathroom floor. EMS showed that the toilet had been closed. EMS lifted the toilet seat and found a baby was face down inside of the toilet. EMS disclosed that the infant was unresponsive. EMS asked [REDACTED] while she was in the ambulance, you said that this happened last Friday?. [REDACTED] said, yes. [REDACTED] had been referring to the infant being in the toilet. LE overheard [REDACTED] says this to EMS. [REDACTED] was transported to [REDACTED] Regional Medical Center.

The infant is still in the home. It is unknown if the infant had special needs or disabilities. LE is currently waiting for a search warrant to be able to go into [REDACTED] home. Investigators are not sure if there will be charges filed. The infant is still head down in the toilet until LE investigators can make entry. [REDACTED] or [REDACTED] said [REDACTED] had tried to get an abortion last week. [REDACTED] said she did not know [REDACTED] was pregnant. LE received pictures from EMS. In the pictures, the infant appeared to be fully developed because LE could make out the

LE has not been involved with any prior Child Death or PND incidences. There are no domestic violence concerns in the home.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?

No

-Anything additional to add to this initial report for the responding worker to know prior to response?

Police Report# [REDACTED]. EMS took 3 photos while in [REDACTED] home. Investigators will take more photographs once they are able to enter.

CM Notation: The referent had limited information due to not being able to enter the home without a search warrant.

Screener Notation: Per TFACTS the mother also has another child, [REDACTED] [REDACTED] (10, DOB: [REDACTED])

Additional info provided by CPS Director [REDACTED] (via LI [REDACTED] and TC [REDACTED] Team Leader [REDACTED] contacted [REDACTED] County Sheriff's Department Detectives [REDACTED] [REDACTED] and [REDACTED] [REDACTED] in regards to this case.

Detective [REDACTED] reported that EMS was called by [REDACTED] last name unknown the boyfriend to [REDACTED] [REDACTED] the adult daughter of [REDACTED] [REDACTED] reporting that [REDACTED] was bleeding really bad from her vagina and having a lot of pain. When EMS arrived to the home they saw a lot of blood and clots around the living area. When they went to the bathroom they saw an umbilical cord hanging from the toilet and when they opened the lid they seen the deceased child. At this point they asked [REDACTED] when she gave birth and she said Friday. At this point the adult daughter [REDACTED] became verbally aggressive and kicked everyone out of the home. EMS took the [REDACTED] to [REDACTED] Regional Medical Center where it was determined she lost about 80% of blood. Mom reported to hospital staff that she miscarried on Friday but the baby was not due till February. The doctors examined her and stated that it appeared she gave birth naturally and that the baby should have been full term.

Law enforcement had to obtain a search warrant to regain entry into the home and gather evidence. The medical examiner came to the home and reported that the baby appeared to be full term with no visible abnormalities. The adult sister [REDACTED] returned to the home while the search warrant was being executed and stated that she did not know mom was pregnant. [REDACTED] stated she came to check on her mom and that she saw how much she was bleeding at that is why [REDACTED] called EMS.

Detectives report at this time they believe that [REDACTED] was attempting to cover up what occurred and that is why she kicked law enforcement out of the home.

Law enforcement has sent in a preservation request for all social media accounts belonging to [REDACTED] and [REDACTED] to find evidence to support the belief that [REDACTED] knew about the child's death.

It is believed the child was born alive but the autopsy is scheduled at 1pm today and TL [REDACTED] will be contacted with those preliminary results which will include whether the child was born alive or stillborn.

Law Enforcement will be pressing charges regardless if the child was stillborn or not. The exact charge will depend on this information.

The mother is currently unstable in the hospital but is expected to survive.

In addition: [REDACTED] contacted [REDACTED] who reported that [REDACTED] was with her and was not present in school today due to her being sick. [REDACTED] reported that she continues to maintain custody and that her mother has not had any unsupervised contact.

The preliminary autopsy was completed, and fluid was found in the lungs but until toxicology is completed they cannot tell if it was birth fluids or toilet water so at this time law enforcement is working the case as if the child was born alive.

The other minor child was present yesterday and told law enforcement that she saw mom bleeding really bad and then saw it in the toilet. She will need a forensic interview and the Sheriff's department has requested that we assist with this case.

Also I was told that the other child does stay with the mother sometimes and that meth was found in the mother's car last night.

CM [REDACTED] [REDACTED] checked the Sex offender Registry for all adults residing in the home on 12/17/2011 at 236 PM and found no results matching the full names and dates of birth of the adults residing in the home.

*Due to [REDACTED] living in the home with [REDACTED] [REDACTED] and [REDACTED] [REDACTED] CM [REDACTED] also checked the sex offender registry for them as well.

and saw a lot of blood and seen the cord coming out of the toilet. [REDACTED] stated she thought it was a string like for her tampon. It was hanging out of the toilet about an inch or two and blood was on it. [REDACTED] asked [REDACTED] if she went in the bathroom. [REDACTED] stated, started to use the bathroom but didn't want to get blood on me. [REDACTED] informed [REDACTED] that if she peeked in the toilet, she wasn't in trouble and that she was trying to understand what happened. [REDACTED] stated that she lifted the lid and it looked like a hand and I was like Oh God no, and I thought it was maybe a baby, I think I seen its feet. They were really tiny; they were straight up. I didn't see anything else. [REDACTED] asked if she heard anything from the toilet. [REDACTED] stated, we didn't hear nothing. [REDACTED] stated that the hand and foot were white. [REDACTED] asked if [REDACTED] told anyone what she saw. [REDACTED] stated, I didn't tell anyone because mom didn't want them to know. [REDACTED] asked if anyone else went into the bathroom. [REDACTED] stated that [REDACTED] looked in the bathroom and saw blood on the floor and stated, I am not going over there, it's going to be disgusting. [REDACTED] asked [REDACTED] if [REDACTED] saw the baby or ever talk about seeing the baby. [REDACTED] stated no. [REDACTED] stated [REDACTED] asked if [REDACTED] told the police what she saw. [REDACTED] stated no. [REDACTED] asked [REDACTED] how long her mother had been sick. [REDACTED] stated that her mother had been sick for 2 weeks. [REDACTED] stated that she saw her mother's phone and saw a text from her mother to [REDACTED] that said miscarriage and text message to [REDACTED] saying, think this baby is coming, I am going to the hospital, blah, blah, blah, I don't remember what he said. [REDACTED] asked [REDACTED] if [REDACTED] knew she was pregnant. [REDACTED] stated, I just felt like [REDACTED] knew because on the text messages said miscarriage and baby. [REDACTED] asked [REDACTED] since her mother was sick, did she go to the doctor. [REDACTED] stated that her mother went to the doctor two days ago.

[REDACTED] asked [REDACTED] is she talked to the police officers. [REDACTED] stated that they asked if she saw what her mother was going through or bleed and [REDACTED] stated she told them no. [REDACTED] stated that the police asked her if she saw the baby and she told them no, I think because I never seen it. [REDACTED] asked if [REDACTED] talked to anyone. [REDACTED] stated, two police officers and they asked for phone numbers. [REDACTED] asked what ended the conversation with the police officers. [REDACTED] stated He just walked away or he said okay that's it. [REDACTED] asked [REDACTED] is [REDACTED] let the police in the house. [REDACTED] stated, she didn't want to get in trouble. [REDACTED] asked if [REDACTED] knew her mother was pregnant? [REDACTED] stated, mom gets a little big when she's pregnant. We started going over her belly got bigger, and I was like she has to be pregnant. My sister was like she's not pregnant, but it did look like she was pregnant. I said she looks pregnant. [REDACTED] stated that her mother didn't talk as much and she thought this was a sign of pregnancy. [REDACTED] asked [REDACTED] if anyone said anything about the baby. [REDACTED] stated, [REDACTED] was talking to [REDACTED] and she said I can't believe she's pregnant. [REDACTED] stated that her mother is at the hospital now getting taken care of. [REDACTED] asked did anyone say anything about the baby moving or being loud. [REDACTED] stated No, my sister won't ask her about it. She didn't ask questions about things.

[REDACTED] stated that her mother asked [REDACTED] to go back to the house and get the rent money for [REDACTED] \$100.00. [REDACTED] stated that when the police were at the house, [REDACTED] got mad and said, I can't believe we can't go in and get mom's money. [REDACTED] stated that they were getting her rent money so that she wouldn't get kicked out, but she got kicked out, so we are looking for a house for her. [REDACTED] stated that after the police were done that they went back to the house to get her mom's money. [REDACTED] asked [REDACTED] if she ever stays with her mother. [REDACTED] stated, no, well me and my sister had to stay there a couple of days. [REDACTED] stated that her mother will pick her up from school and she will stay with her until [REDACTED] and [REDACTED] get off work. [REDACTED] stated that her mother works at [REDACTED]. [REDACTED] asked [REDACTED] if anyone had talked to her about coming here today. [REDACTED] stated, that I had to come here today and her and my other sister were worried I was going to get taken away. [REDACTED] asked [REDACTED] if there was anything else that she wanted to talk about or ask. [REDACTED] stated no. [REDACTED] ended the interview at this time. accidentally got pregnant again. [REDACTED] stated that there was a baby in the toilet, blood, and used tampons. [REDACTED] asked [REDACTED] if she saw the baby. [REDACTED] stated no. [REDACTED] stated that she looked in the bathroom and saw a lot of blood and seen the cord coming out of the toilet. [REDACTED] stated she thought it was a string like for her tampon. It was hanging out of the toilet about an inch or two and blood was on it. [REDACTED] asked [REDACTED] if she went in the bathroom. [REDACTED] stated, started to use the bathroom but didn't want to get blood on me. [REDACTED] informed [REDACTED] that if she peeked in the toilet, she wasn't in trouble and that she was trying to understand what happened. [REDACTED] stated that she lifted the lid and it looked like a hand and I was like Oh God no, and I thought it was maybe a baby, I think I seen its feet. They were really tiny; they were straight up. I didn't see anything else. [REDACTED] asked if she heard anything from the toilet. [REDACTED] stated, we didn't hear nothing. [REDACTED] stated that the hand and foot were white. [REDACTED] asked if [REDACTED] told anyone what she saw. [REDACTED] stated, I didn't tell anyone because mom didn't want them to know. [REDACTED] asked if anyone else went into the bathroom. [REDACTED] stated that [REDACTED] looked in the bathroom and saw blood on the floor and stated, I am not going over there, it's going to be disgusting. [REDACTED] asked [REDACTED] if [REDACTED] saw the baby or ever talk about seeing the baby. [REDACTED] stated no. [REDACTED] stated [REDACTED] asked if [REDACTED] told the police what she saw. [REDACTED] stated no. [REDACTED] asked [REDACTED] how long her mother had been sick. [REDACTED] stated that her mother had been sick for 2 weeks. [REDACTED] stated that she saw her mother's phone and saw a text from her mother to [REDACTED] that said miscarriage and text message to [REDACTED] saying, think this baby is coming, I am going to the hospital, blah, blah, blah, I don't remember what he said. [REDACTED] asked [REDACTED] if [REDACTED] knew she was pregnant. [REDACTED] stated, I just felt like [REDACTED] knew because on the text messages said miscarriage and baby. [REDACTED] asked [REDACTED] since her mother was sick, did she go to the doctor. [REDACTED] stated that her mother went to the doctor two days ago.

[REDACTED] asked [REDACTED] is she talked to the police officers. [REDACTED] stated that they asked if she saw what her mother was going through or bleed and [REDACTED] stated she told them no. [REDACTED] stated that the police asked her if she saw the baby and she told them no, I think because I never seen it. [REDACTED] asked if [REDACTED] talked to anyone. [REDACTED] stated, two police officers and they asked for phone numbers. [REDACTED] asked what ended the conversation with the police officers. [REDACTED] stated He just walked away or he said okay that's it. [REDACTED] asked [REDACTED] is [REDACTED] let the police in the house. [REDACTED] stated, she didn't want to get in trouble. [REDACTED] asked if [REDACTED] knew her mother was pregnant? [REDACTED] stated, mom gets a little big when she's pregnant. We started going over her belly got bigger, and I was like she has to be pregnant. My sister was like she's not pregnant, but it did look like she was pregnant. I said she looks pregnant. [REDACTED] stated that her mother didn't talk as much and she thought this was a sign of pregnancy. [REDACTED] asked [REDACTED] if anyone said anything about the baby. [REDACTED] stated, [REDACTED] was talking to [REDACTED] and she said I can't believe she's pregnant. [REDACTED] stated that her mother is at the hospital now getting taken care of. [REDACTED] asked did anyone say anything about the baby moving or being loud. [REDACTED] stated No, my sister won't ask her about it. She didn't ask questions about things.

[REDACTED] stated that her mother asked [REDACTED] to go back to the house and get the rent money for [REDACTED] \$100.00. [REDACTED] stated that when the police were at the house, [REDACTED] got mad and said, I can't believe we can't go in and get mom's money. [REDACTED] stated that they were getting her rent money so that she wouldn't get kicked out, but she got kicked out, so we are looking for a house for her. [REDACTED] stated that after the police were done that they went back to the house to get her mom's money. [REDACTED] asked [REDACTED] if she ever stays with her mother. [REDACTED] stated, no, well me and my sister had to stay there a couple of days. [REDACTED] stated that her mother will pick her up from school and she will stay with her until [REDACTED] and [REDACTED] get off work. [REDACTED] stated that her mother works at [REDACTED]. [REDACTED] asked [REDACTED] if anyone had talked to her about coming here today. [REDACTED] stated, that I had to come here today and her and my other sister were worried I was going to get taken away. [REDACTED] asked [REDACTED] if there was anything else that she wanted to talk about or ask. [REDACTED] stated no. [REDACTED] ended the interview at this time. was in the house? [REDACTED] stated, "It was my moms blood because whenever I was born she lost a lot of blood and then she accidentally got pregnant again". [REDACTED] stated that there was a baby in the toilet, blood, and used tampons. She disclosed seeing the infant in the toilet and a lot of blood from mom. She drew a picture on the whiteboard of the umbilicord hanging out of the toilet. She never heard or saw the baby move while it was in the toilet. On this day there was a search warrant on [REDACTED] vehicle where they found Marijuana. On 2/1/2022 [REDACTED] had another forensic interview where she disclosed [REDACTED] advised the day EMS was called they went to target around 1-2. Her mom was fine before target but at target she got really sick. They saw [REDACTED] at target. When they got home after 1-2 hours, she heard mom scream from the bathroom and cry. She went in and mom was in the floor bleeding and a baby was in the toilet. Mom told [REDACTED] to shut the lid and not tell anyone about the baby. [REDACTED] said she helped mom to her bed around 1am and the next day she got her nails done at [REDACTED] around 10am. I will follow up with [REDACTED] about the day and time she was there. [REDACTED] drew on whiteboard the baby feet in the toilet that she saw. On 3/18/2022 CM [REDACTED] reviewed the death certificate that stated that [REDACTED] was alive for 5 minutes. On 5/18/2022 CM [REDACTED] presented the case to CPIT and it was classified as abuse death due to [REDACTED] being alive for 5 minutes and there being enough evidence to substantiate for abuse death. [REDACTED] was placed with [REDACTED] maternal grandmother and that is where she continues to reside.

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

[REDACTED] had an autopsy and the results of his death were undetermined. [REDACTED] Death Certificate states that [REDACTED] was alive for 5 minutes.

[REDACTED] tested positive for Methamphetamine and also had Methamphetamine in her vehicle. [REDACTED] had Marijuana in the vehicle that she was driving [REDACTED] around in.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

[REDACTED] advised she was at Target with [REDACTED] and [REDACTED] when she began having contractions. She drove home and [REDACTED] went into her room. She went into the bathroom, sat on the toilet, and had the baby. She began to get weak from blood loss. She doesn't remember a lot. [REDACTED] brought her food and she ate. She said [REDACTED] did not shut the toilet lid so she must have. She did not hear the baby in the toilet so she did not think to look and check on him. She never looked at him and did not touch him. She called [REDACTED] to come help her after having the baby. She knew she was pregnant. She had a normal pregnancy with no problems. She was not ready to have another baby and did not know what to do with him once she had him.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

On 12-15-2021, [REDACTED] went by the home to check on [REDACTED]. [REDACTED] entered the home and saw [REDACTED] did not look well. [REDACTED] called EMS. At 11:51 p.m., EMS was dispatched to [REDACTED] home. EMS entered the home. At 0025 hours, LE responded.

EMS had pictures of blood in the home, and there was blood on the bathroom floor. EMS showed that the toilet had been closed. EMS lifted the toilet seat and found a baby was face down inside of the toilet. EMS disclosed that the infant was unresponsive. EMS asked [REDACTED] while she was in the ambulance, "you said that this happened last Friday?". [REDACTED] said, "yes". [REDACTED] had been referring to the infant being in the toilet. LE overheard [REDACTED] says this to EMS. [REDACTED] was transported to [REDACTED] Regional Medical Center.

The infant is still in the home. It is unknown if the infant had special needs or disabilities. LE is currently waiting for a search warrant to be able to go into [REDACTED] home. Investigators are not sure if there will be charges filed. The infant is still head down in the toilet until LE investigators can make entry. [REDACTED] or [REDACTED] said [REDACTED] had tried to get an abortion last week. [REDACTED] said she did not know [REDACTED] was pregnant. LE received pictures from EMS. In the pictures, the infant appeared to be fully developed because LE could make out the child's feet. [REDACTED] was supposedly due in February 2022. Detective [REDACTED] attempted to speak with [REDACTED] was going in and out of consciousness. [REDACTED] told LE that she was going to the hospital with [REDACTED]. Detectives searched for [REDACTED] at the hospital and were unable to find her. It is unknown
